## **FAHC Expands EdgeStick™ Donations to “Sister Soldiers”**

**ATLANTA, GA, July 21, 2011** – FAHC Distributor announced today that every purchase of an [EdgeStick™](#), the professional “no burn” edge and root styling tool, for a “Sister Soldier” will include an additional complementary EdgeStick in the order to be shared with a fellow female soldier.

Explained Gayle Ray-Watson, Managing Partner, FAHC Distributor, “Any woman can tell you that when her hair looks good, she feels good. Just because Sister Soldiers are strong, independent women who have decided to serve their country, doesn’t make their desire to be well-groomed disappear. In fact, these women must meet strict military grooming guidelines whether in the U.S. or abroad.”

“The EdgeStick can help with that goal; FAHC Distributor can help with that goal by including a free EdgeStick with each EdgeStick purchase for a female soldier to help them maintain their hair’s appearance.”

The EdgeStick styling tool affords users, and this instance soldiers, with more styling options. With the ability to straighten their hair closest to the root than any other tool on the market without the danger of getting burned, these women will have more styling options other than wearing braids or cutting their hair off.

FAHC Distributor, through its affiliation with Suntek Global (EdgeStick designer and manufacturer), is a proud sponsor of the [Sister Solider Project](#), founded in 2006 to provide ethnic hair care packages to African-American female soldiers.

On average, every year the grass roots “Sister Soldier Project” ships more than 1,500 care packages to female soldiers filled with ethnic personal hair care items that are not available to them through “normal” channels. Many of these packages include the EdgeStick.

The free EdgeStick offer is valid through Dec. 31, 2011 on orders placed exclusively on [OriginalEdgeStick.com](#), and shipped to an APO or FPO address.

### **About the EdgeStick ([OriginalEdgeStick.com](#))**

The EdgeStick™, designed and manufactured by [Suntek Global](#), is a professional styling tool that is suitable for all hair types: course, curly, straight, thick and fine. Unlike any other tool in the industry, The EdgeStick™ lets users get closest to the hair root – even touching the scalp – without the danger of burning their scalp, face, or ears. It is imported to the U.S. by FAHC Distributor.

### **About the Sister Solider Project ([sistersoldierproject.com](#))**

The Sister Soldiers Project was born out of the desire to send “care packages” to the brave women serving our nation. The packages contain various ethnic personal care products so important to their quality of life and give them at least a small taste of their “normal” lives back home.
