The EdgeStick™ Video Contest Winner Announced

ATLANTA, GA, January 1, 2011 – FAHC Distributor, exclusive US importers of the EdgeStick styling tool, has named Stylist Jhavuanna Moody of the [Evolution The Green Room Salon](#) (Brooklyn, NY) as the winner of the EdgeStick Video Competition.

The [EdgeStick](#) is a professional styling tool that straightens hair as close to the root as possible - without the danger of burning the skin or damaging the hair's natural curl pattern. The EdgeStick is suitable for all hair types, and is safe for color and/or chemically treated hair. It is available in both professional (200 - 450 degrees Fahrenheit) and consumer (200 - 400 degrees Fahrenheit) models - online and at fine beauty salons throughout the country and internationally.

Ms. Moody's video was deemed the winner because it captured the effectiveness of the styling tool by demonstrating its ability to straighten and smooth the hairline as well as discuss the many ways the EdgeStick may be used.

"We were pleased with the creativity Jhavuanna used to explain the versatility of the EdgeStick, and encourage other users – both stylists and consumers - to continue to submit their videos to us to feature on our site and social media platforms," said Gayle Watson, Managing Partner, FAHC Distributor.

About the Azure EdgeStick (www.OriginalEdgeStick.com)

The EdgeStick™, designed and manufactured by Suntek Global, is a professional styling tool that is suitable for all hair types: coarse, curly, straight, thick and fine. Unlike any other tool in the industry, The EdgeStick™ lets users get closest to the hair root – even touching the scalp – without the danger of burning their scalp, face, or ears.
